Summary — Dynamic Software Developer with expertise in JavaScript, React, Redux, and Node.js, actively contributing to impactful web applications since March 2024. Enhanced user experiences on the Japfa Best platform through API integration and Tailwind CSS. Passionate about personal projects in Java and Spring Boot, with solid skills in Bitbucket, Jira, and AWS. Committed to continuous learning and tackling challenges in collaborative environments.

Skills

Languages C, JavaScript, Java	Web Technologies HTML, CSS, Bootstrap, Tailwind CSS
Frameworks React, Redux, Node.js, Spring Boot	Development Practices API Integration, Responsive Design
Tools Bitbucket, Jira, AWS	Version Control Git

Experience

Japfa Comfeed India Pvt. Ltd.

March 2024 – Present

Frontend Developer (Trainee)

State Management And API Integration

- Utilized Redux to efficiently manage application state across complex components, ensuring a centralized and predictable data flow that enhances maintainability.
- Integrated RESTful APIs to provide real-time data access, enabling seamless communication between the front-end and back-end systems.

UI Development and Back Office Features

- Worked on the shipment management module, CMS module, and production module to create responsive and intuitive user interfaces for the JAPFA BEST PC-Back Office platform, enhancing user experience.
- Developed features for inventory tracking and order processing within the back office management system using React.

Collaboration with Cross-Functional Teams

- Worked closely with UI/UX designers and backend developers to ensure seamless integration between the front-end interface and back office functionalities.

Performance Optimization

- Analyzed component performance and applied techniques such as lazy loading and code splitting to enhance responsiveness.

Education

Institute for Advanced Computing and Software Development (IACSD), Akurdi Pune

PG Diploma in Advanced Computing

Shivaji University Kolhapur

Bachelor of engineering in Mechanical Engineering

Certifications

- Udemy - The Complete 2023 Web Development Bootcamp

Projects

Movie & TV Show Explorer

- Developed a React app using TMDB API to display trending, popular, and top-rated movies and TV shows.
- Added search functionality and integrated trailer viewing.
- Leveraged React.js for a responsive and optimized user experience.
